PROFESSIONAL SUMMARY

Innovative Senior Front-End Architect with 17+ years specializing in React and component-based design systems. Proven leader in delivering scalable, high-performance solutions and mentoring cross-functional teams. Passionate about leveraging serverless architectures to drive user engagement and business growth. Seeking to bring expertise to a forward-thinking organization committed to digital innovation.

CORE COMPETENCIES

Front-End Development

React, Next.js, Vue.js, Tailwind CSS

Application Architecture

Component-driven design, GraphQL, Performance Optimization

Security & Testing

Vulnerability Detection, TDD (Test-Driven Development)

Leadership

Agile Methodologies, Team Leadership, Cross-Functional Collaboration

Programming Languages

JavaScript, TypeScript, Python, C#, PHP

Mobile Development

iOS Swift, React Native, Java

Performance & Accessibility

WCAG Compliance, SEO Best Practices, Lighthouse Auditing

DevOps & Cloud Platforms

AWS (Lambda, S3, CloudFront), Docker, Kubernetes, GitOps, Azure, GCP

PROFESSIONAL EXPERIENCE

Launch

October 2014 - Present

Director of Technology / Senior Full-Stack Engineer

Launch, Atlanta, GA

- Led a 10-member cross-functional team, developing and deploying 150+ digital products on React, Node.js, and Next.js platforms, resulting in a 700% increase in user engagement.
- Architected award-winning frameworks, improving page load times and performance with serverless architecture, GitOps, and Build Automation tools.
- Delivered VR-powered digital experiences using React Three Fiber and Framer Motion, balancing aesthetics with performance optimization.
- Mentored remote developers across multiple regions, emphasizing agile practices, accessibility compliance, and performance best practices.

Key Achievements:

- Implemented GitOps and serverless architecture, cutting deployment times by 40%.
- Established front-end development guidelines for React projects, introducing reusable component libraries and mentoring team members on effective use of hooks and state management techniques.
- Designed and maintained a guided tour framework that consistently achieved Lighthouse performance scores above 90, ensuring fast page loads, strong SEO, and an excellent user experience.

IQ Agency
Manager of Technology / Lead Full-Stack Engineer
Atlanta, GA

May 2009 - October 2014

- Managed projects for high-profile clients including Microsoft, Allstate, and SunTrust, delivering products with a \$5M+ annual impact.
- Spearheaded the creation of Allstate's Digital Locker and MSN MyHealthVault, transforming client engagement through digital innovation.
- Streamlined project delivery workflows, achieving a 30% reduction in delivery times by implementing agile project management strategies.

Alogent
Software Engineer
Norcross, GA

April 2007 - May 2009

- Collaborated with a global development team to deliver financial software solutions for clients like JPMorgan Chase, Lloyds, and SunTrust.
- Applied Test-Driven Development (TDD) practices, resulting in a 30% reduction in software bugs.
- Managed a multi-tenant SaaS product suite, ensuring 24/7 availability with agile task tracking using VersionOne.

EDUCATION

Kennesaw State University M.Sc. in Software Engineering

Kennesaw State University B.Sc. in Computer Science, *Minor in Applied Mathematics*

CERTIFICATIONS

Machine Learning Engineering for Production (MLOps) – DeepLearning.AI | 2021 (ID #X26642RWZETJ)

Microsoft Certified: Azure AI Fundamentals – Microsoft | 2021 (ID #1070-5875)

Deploying Machine Learning Models in Production – DeepLearning.AI | 2021 (ID #9MWDWJRLWWAU)

Machine Learning Modeling Pipelines in Production – DeepLearning.AI | 2021 (ID #CZYKWBZCSX7P)

Machine Learning Data Lifecycle in Production – DeepLearning.AI | 2021 (ID #VRSCB8GR8TFL)

ADDITIONAL SKILLS

Languages

JavaScript, TypeScript, Python, PHP, C#, Shell Scripting

Development Tools

GitHub Actions, Docker, Kubernetes, Codespaces, Storybook

Performance & Accessibility

WCAG 2.1, SEO, Lighthouse Auditing, Server-side Rendering

Design System & Tools

Storybook, Figma, Adobe, Design Consistency, UI Libraries

Cloud Platforms

AWS, GCP, Vercel, Azure

Web & Mobile Frameworks

React, Angular, Redux, React Context,
React Native, MobX, Zustand, Swift

Project Leadership

Agile Methodologies, Cross-Functional
Collaboration, Stakeholder Management
